### Quarterly Net Sales and Operating Income (Consolidated)

- Thanks to robust showings in each business segment, operating results for FY2018 included an increase in sales and profit compared with FY2017. Operating results for 4Q included an increase in sales and profit QoQ, except PE segment.

### Quarterly Orders Received and Orders Backlog (Consolidated)

- 4Q Orders Received

Overall: ¥116.1 bn. The volume of orders received remained high.

SE: ¥72.5 bn.

- Despite declining from 3Q, orders received were still high (the second highest on record).
- Having received orders in excess of ¥50 bn. for the seventh consecutive quarter, the high plateau situation, we expect the showings of the SE to remain robust.

FT: ¥24.6bn.

Orders received exceeded ¥10 bn. for four consecutive quarters.

- 4Q Orders Backlog

Overall: 178.6 bn.

Thanks to the robust volume of orders received, continued from 3Q, marking a record high.

Trend in B/S (Consolidated)

>>Assets

>>Liabilities & Net Assets

Equity Ratio : 47.5% (2017/3)

46.7% (2018/3)

Comparison with the end of FY2017:

- Total assets stood at ¥366.1 bn., an increase of ¥65.5 bn. or 21.8%.
- Reason for increase of assets:  
This way largely due to an increase in notes & accounts receivable including electronically recorded monetary claims and inventories.
- Reason for increase/decrease of total liabilities and total net assets:
  - Total liabilities amounted to ¥195.3 bn., up ¥37.5bn., or 23.8%.  
This way mainly attributable to an increase in notes and accounts payable including electronically recorded obligations.
  - Total net assets amounted to ¥170.8bn., up ¥27.9bn., or 19.6%.  
This way mainly attributable to the recording of profit attributable to owners of parent and on increase in valuation difference on available-for-sale securities due to an increase in the market values of held stocks, despite spending for the purchase of treasury stock.
- As a result, the equity ratio as of March 31, 2018 stood at 46.7%

Cash Flows (Consolidated)

>>FY2018 Free Cash Flow : ¥ 17.6 bn.

General condition of Consolidated Cash Flows for FY2018:

- Net cash provided by operating activities amounted to ¥28.8bn., compared with ¥49.0bn., provided by operating activities in FY2017.
  - This was because the sum of income before income taxes, an increase in notes and accounts payable including electronically recorded obligations and other inflows exceeded the increase in notes & accounts receivable including electronically recorded monetary claims and inventories, and other outflows.
- Net cash used in investing activities amounted to ¥11.2bn., compared with ¥5.8 bn. used in investing activities in FY2017.
  - This was largely attributable to the purchase of property, plant and equipment, such as equipment for R&D.
- As a result, Total Free Cash Flow (FCF) was ¥17.6 bn., compared with 43.1 bn. in FY2017.
- Net cash used in financing activities amounted to ¥11.5 bn., compared with ¥27.4bn. used in financing activities in FY2017.
  - This was due in part to the payment of long-term loans payable, cash dividends and the acquisition of treasury stock.
