

Consolidated Business Results & Forecasts

FY2023/03 First Quarter Ended June 30, 2022

July 27, 2022

SCREEN Holdings Co., Ltd.

·Financial Summary of FY2023/03 1Q

Yoichi Kondo, CFO, Senior Managing Director

·Business Environment and Forecast

Toshio Hiroe, CEO, President

* Cautionary statement with respect to these materials: The earnings forecasts contained in these materials and communicated verbally, are made in accordance with currently available information and rational assumptions. SCREEN Holdings does not promise that the forecasts or estimates will be accurate. Therefore, it should be noted that actual results could differ significantly due to a variety of factors.

* Figures have been rounded down to eliminate amounts less than 100 million JPY, except per share figures. A ratio has been rounded off.

* SCREEN's fiscal year (FY) encompasses the period from April 1 to March 31 of the following calendar year. (Ex. FY2023/03: April 1, 2022 - March 31, 2023)

Financial Summary of FY2023/03 1Q

July 27, 2022

SCREEN Holdings Co., Ltd.
CFO, Senior Managing Director
Yoichi Kondo

Financial Summary

Business results in 1Q

- **Company-wide:**
 - **Steady overall, both sales and profits hit record highs as 1Q results**
 - **Increased in sales and profit YoY, operating income doubled, and net profit 2.6 times**
Steady start in the face of material shortages and rising logistics costs
- **SPE:**
 - **Major driver of company-wide performance. Record highs in sales, operating income and OP margin as 1Q results**
 - **OP margin achieves 22.3% and orders in line with expectations**
- **Cash flows remains stable, Net Cash of ¥118.0 bn**

FY2023/03 1Q Business Results

Sales by Segment

Sales by Region

Quarterly Orders Received and Order Backlog

- 1Q Orders received
 - Company-wide: Above ¥100.0 bn for 7 consecutive quarters
 - SPE: ¥104.3 bn, remained at a ¥100.0 bn level

Financial Situation: B/S

Assets

■ Cash & time deposits
 ■ Notes & accounts receivable
 ■ Inventories
 ■ Other current asset
 ■ Non-current asset

(Billions of JPY)

Liabilities & Net Assets

■ Notes & accounts payable
 ■ Interest-bearing debt
 ■ Other liabilities
 ■ Net assets

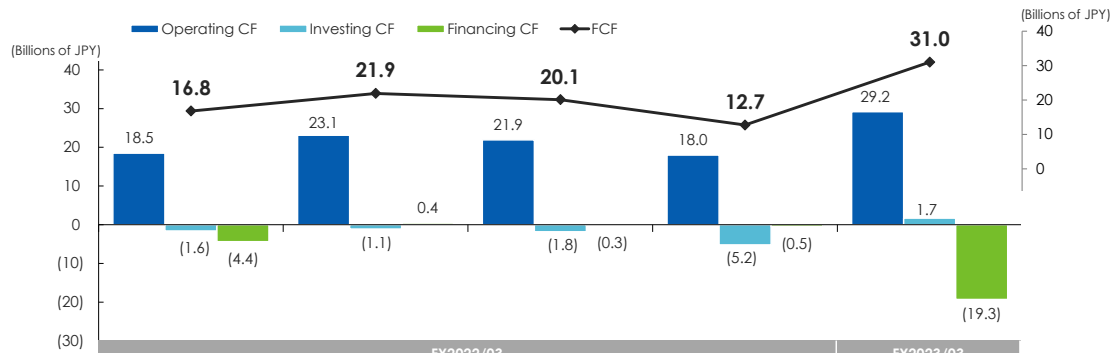

■ **Equity ratio: 55.2% (FY2023/03 1Q)**

■ **Net cash of ¥118.0 bn**

- Total assets stood at ¥472.5 bn.
- Assets:
 - Assets stood at ¥472.5 bn, an increase of ¥13.2 bn, compared with March 31, 2022. This was largely due to an increase in cash and deposits and inventories, despite a decrease in notes and accounts receivable including electronically recorded monetary claims.
- Total liabilities and total net assets:
 - Total liabilities amounted to ¥211.6 bn, up ¥0.1 bn or 0.1% from March 31, 2022. This was mainly attributable to an increase in other current liabilities and contract liabilities, despite a decrease in convertible bond-type bonds with share acquisition rights.
 - Total net assets amounted to ¥260.8 bn, up ¥13.1 bn from March 31, 2022. This was mainly attributable to the recording of quarterly profit attributable to owners of parent, the conversion of convertible bond-type bonds with share acquisition rights causing both an increase in capital surplus and a decrease in treasury stock, despite payment of cash dividends.
- As a result, the equity ratio as of June 30, 2022 stood at 55.2%.

Financial Situation: Cash Flows

(Billions of JPY)	FY2022/03				FY2023/03
	1Q	2Q	3Q	4Q	1Q
Operating CF	18.5	23.1	21.9	18.0	29.2
Investing CF	(1.6)	(1.1)	(1.8)	(5.2)	1.7
FCF	16.8	21.9	20.1	12.7	31.0
Financing CF	(4.4)	0.4	(0.3)	(0.5)	(19.3)

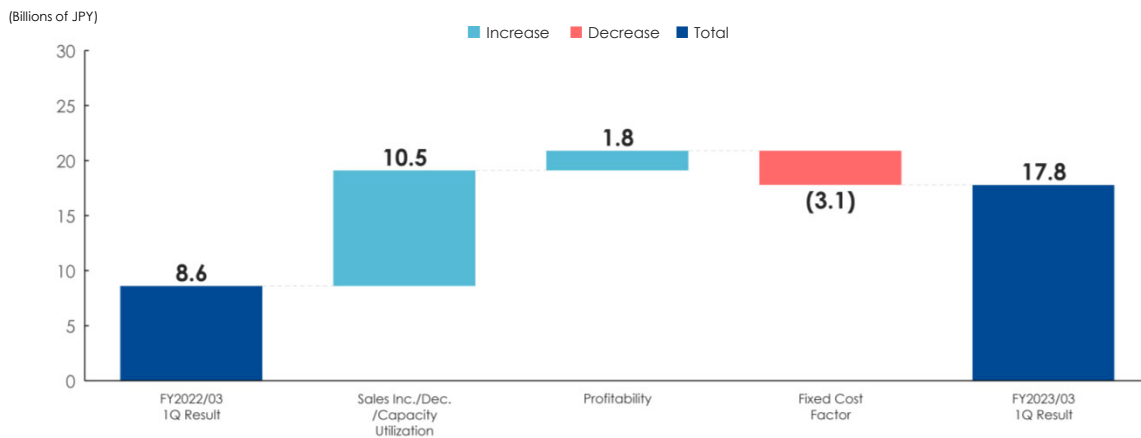

Major breakdown items
 - Cash dividends (13.3)
 - Redemption of CB (5.6)

* FCF: Free Cash Flow

■ Operating CF continues to exceed operating income. Achieve a record high as a quarter result

Analysis of Comparison in Operating Income

FY2023/03 1Q Result - Comparison with FY2022/03 1Q result

>> Profitability improved due mainly to SPE

>> Fixed costs increased due mainly to SPE. We expect higher personnel expenses, performance-linked remuneration and R&D expenses, etc. in preparation for further growth

Changes In Disclosure Items

➤ **Orders received and order backlog**

Quantitative disclosure of actual and forecast figures will be ceased from the current fiscal year. Regarding 1Q, we disclosed only the actual figures as a transition period

➤ **Reason of change**

We judge that information related to order intake, which fluctuate greatly over the short term, is no longer an appropriate indicator of medium- to long-term market trends and business growth

➤ **New disclosure items, supplementary information for engagement**

In addition to the sales forecasts disclosed regularly, we will further enhance engagement with the stakeholders in capital market by disclosing application-specific sales ratio forecasts for core semiconductor-related business, SPE

Business Environment and Forecast

July 27, 2022

SCREEN Holdings Co., Ltd.

CEO, President

Toshio Hiroe

Business Environment and Forecast

Business Environment

- **SPE:**
 - Demand for equipment remains strong, particularly in foundry and logic
 - Record highs in sales, operating income and OP margin as 1Q results
 - Due to the impact of the shortage of components, sales scheduled for 1H partially slide into 2H
- **GA and PE: Steady start in terms of sales and profits**

Full Year Business Forecast

- **Full-year forecast unchanged from May forecast**
 - Both sales and profits are expected to reach record highs due to improvements in profitability and efficiency
 - 2H, factoring in soaring component prices
- **Capital expenditure, raised from May forecast, R&D expenses and depreciation and amortization all reach record highs in order to achieve sustainable growth**
- **From a long-term perspective, plans to reinforce production and service bases, expand and strengthen equipment capacity in Hikone, Takaoka, Kumamoto, Fukushima**
- **Medium-term management plan: revision of Numerical Targets**

Market Trend and Outlook

SPE

- **WFE:** Investment appetite remains undiminished in foundries and logic for the nodes from the leading-edge to legacy
 - Capital investment progress steadily, despite delivery timing adjustments due to component shortages
 - Expect around 10 - 15% YoY growth in CY2022, around \$100 - 105 bn

- **Trends by applications**

Foundry	Not only the production capacity of advanced devices, but also legacy generations are expanding
Logic	Investment plans for leading-edge devices also progressing
Memory	Paying close attention to the timing and possibility of scale adjustment of investment. DRAM for miniaturization and NAND for the shift toward multi-layered count will continue
Imaging Device	Existing major companies' investment plans remain steady. Production expansion at foundries also progressing
Power	Investments, mainly in major European companies, as well as in Japan and Asian area, remain firm
Chinese market	Appetite for investments in mature node foundries and memory remains strong
Others	Solid investments in analog, sensors, optics, etc. continue

- ▶ **Providing a variety of solutions not only for leading-edge node where needs for cleaning increasing due to miniaturization but also for volume zones to mature nodes**
 >> **We will reinforce development and production structure to fulfill supply responsibility**

Composition of Sales

By Region (Consolidated) / By Application Device (Nonconsolidated)

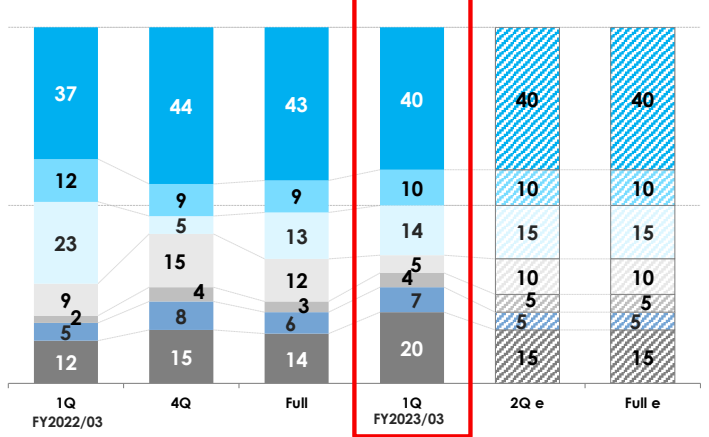

By Region -destination-

Japan Taiwan China South Korea North America Europe Others

By Application Device

Foundry Logic Flash DRAM Imaging Device Power Device Others

* Ratio: approximate numbers per 5%

- By region in 1Q : (YoY) Sales increased significantly in Taiwan, followed by North America. (QoQ) : Sales increased largely in North America
- By application in 1Q : (YoY) Sales increased significantly in others, while increased in foundry. (QoQ) Sales increased significantly in flash and others

After sales services

■ 1Q: Following 4Q, parts sales are strong in 1Q as well

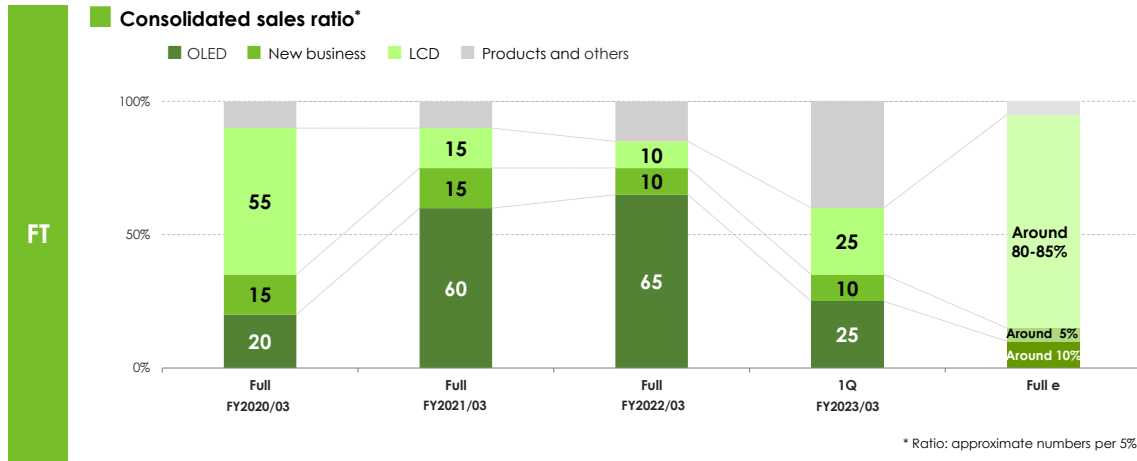

■ Going forward: Expect to contribute to further improvement in OP margin from increasing needs for maintenance and modification for newly delivered equipment

Recurring business stabilizes at a high level. Profit margins also recover

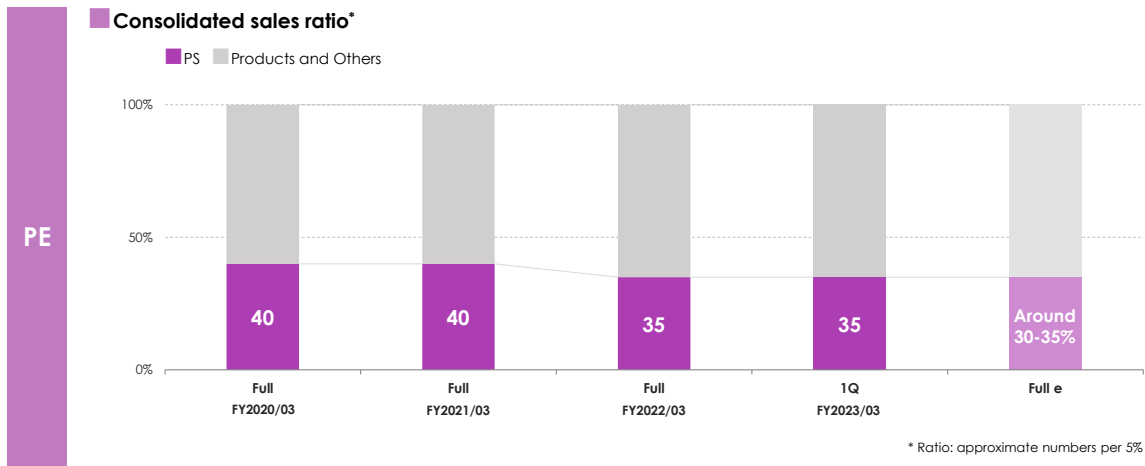

- Recurring business (RB), especially ink sales, remains firm
- Focus on growing demand for POD in North America and Europe, while controlling costs for parts shortages and transportation
- Maintain a stable OP margin of 5% or more

Display market uncertain, sales composition is centered on LCDs

- 1Q: sales and orders were sluggish due to the impact of the Shanghai lockdown, but recovery is expected in 2Q
- In the current fiscal year, the display market is expected to be in an uncertain environment. 80 - 85% of sales might be coming from LCD
- In the long term, targeting business portfolio transformation aim for growth of the new business in energy field

After sales services is level off

- Demand is still robust for data centers and packages
- Sales of new products, such as Ledia Twin, grow
- Continued strengthening of new product development for further growth

FY2023/03 Business Forecast (as of July 27, 2022)

* is a record high

(Billions of JPY)	FY2022/03 Result	FY2023/03 Forecast (May)			FY2023/03 Forecast (July)		
	Full	1H	2H	Full	1H	2H	Full

PE	2.0	0.5*	1.5*	2.0*	1.0*	1.0*	2.0*
Others	(5.8)	(4.0)*	(4.0)*	(8.0)*	(4.0)*	(4.0)*	(8.0)*
Ordinary Income	59.4	31.0	42.0	73.0	33.5	39.5	73.0
Profit attributable to owners of Parent	45.4	22.0	28.0	50.0	26.0	24.0	50.0

Notes: Assumed Exchange Rate in FY2023/03 >> USD1 = ¥125, EUR1 = ¥135

* Forecast operating income by segment: approximate numbers per ¥0.5 bn

Assumed exchange rate sensitivity in FY2023/03 (Full year Operating income base) >> To USD: ¥170 million, To EUR: ¥30 million

Company-wide, FY2023/03 Full Term

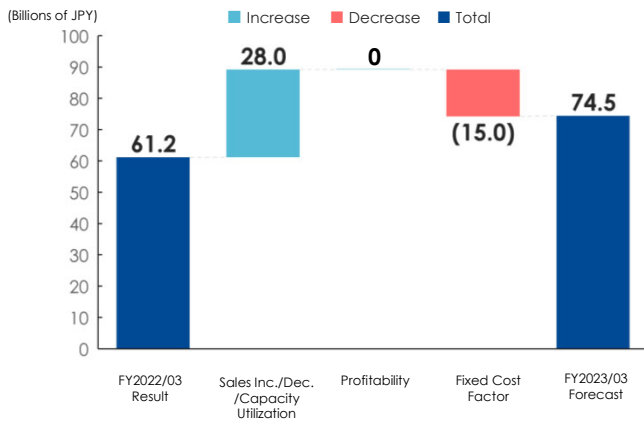

- Net sales is ¥460.0 bn , operating income is ¥74.5 bn, ordinary income is ¥73.0 bn and profit attributable to owners of parent is ¥50.0 bn, expected to be the highest on record

SPE

- Both sales and OPM expected to be a record high by favorable market conditions

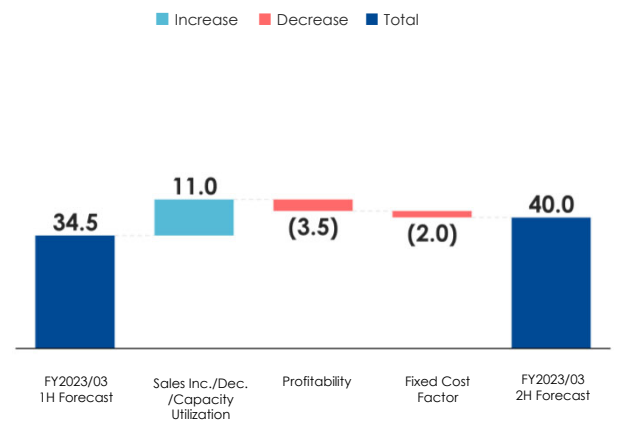

Analysis of Comparison in Operating Income

FY2023/03 Forecast - Comparison with FY2022/03 result

- >> Increased profit is expected mainly due to higher sales in SPE
- >> Fixed costs increased mainly due to SPE. We expect higher capital expenditures, R&D expenses and personnel expenses due to increased headcount, etc. in preparation for further growth

FY2023/03 2H Forecast - Comparison with FY2023/03 1H Forecast

* Operating Income Factor: approximate numbers per 0.5 bn

- >> Profitability, factoring higher component prices, is expected to be declined in 2H
- >> Expect increase in fixed costs due to R&D expenses and the start-up of the new SPE factory S³⁻⁴ in 4Q

Business Forecast for FY2023/03

Others

(Billions of JPY)	1Q Result	1H e	2H e	FY2023/03 e
Depreciation and amortization	2.1	4.9	5.3	10.2
Capital expenditures* ¹	4.4	11.0	20.0	31.0
R&D expenses* ²	6.0	14.5	14.5	29.0

*1: It includes investment in strengthening SPE production and service systems

*2: They are used to strengthen development in HD and aim to develop new products in LS, AI, ADPKG, and hydrogen-related fields

>> Cash dividend (Forecast)

- Dividends will rise due to a significant increase in profit attributable to owners of parent (May forecast unchanged)
- Returning profits to shareholders in line with the target of maintaining a total consolidated shareholder return ratio of 30% or above as set forth in the medium-term management plan

(JPY)	FY2023/03 e
Cash dividends per share	322

Topics>>

SCREEN Strengthens Its Production and Service Systems for Semiconductor Manufacturing Equipment

– Capital Investment in Hikone Plant and Three Domestic Group Companies Supports Long-term Expansion of Demand –

- Construction of a new semiconductor manufacturing equipment factory, named S³-5 (S-Cube 5) in Hikone Plant. Scheduled to begin operation in January 2024
- Expansion production capacity of production subsidiary, SPE Works, for reinforce production capacity
- Construction of a new factory on the company's premises in Kumamoto Prefecture to strengthen the maintenance service system. Consolidate Kumamoto service station and set up a training center
- Expand production capacity of our cleaning equipment parts production subsidiary, SPE Quartz
- Capital investment this time will increase production capacity by approx. 20%* in the entire SPE business

*Comparison with production capacity after the start of operation of S³-4. The capacity increased includes effects from the investments on SPE Works and SPE Quartz

- Total investment: Approx. ¥16.0 bn
 - Constructing the new factory S³-5: Approx. ¥8.0 bn
 - Investment in three domestic group companies: Approx. ¥8.0 bn

>> Aiming to further increase market share by strengthening production capacity, while improving profitability and competitiveness

>> Continue efforts to reduce the environmental impact of production equipment, including the introduction of energy-saving air conditioning equipment

>>Revise the final year targets of the current medium-term management plan and strive to be a higher grade corporation in the next medium term

	Economic Value Targets in the final fiscal year (Initial planned)	FY2021/03 Result (1st Year Result)	FY2022/03 Result (2nd Year Result)	FY2023/03 Forecast (3rd Year Forecast)	Economic Value Targets in the final fiscal year ending March 31, 2024 (After revision)
Net sales	¥400.0 bn or above	¥320.3 bn	¥411.8 bn	¥460.0 bn	¥500.0 bn or above
OPM	15% or above	7.6%	14.9%	16.2%	17% or above
ROE	15% or above	7.9%	19.9%	20% or above	20% or above
Operating CF	¥120.0 bn or above (Four-year cumulative)	¥57.2 bn	¥138.9 bn (Two-year cumulative)	¥170.0 bn- ¥190.0 bn (Three-year cumulative)	¥240.0 bn or above (Four-year cumulative)
Shareholder Returns	Total consolidated shareholder return ratio of 30% or above	27.7%	30.1%	30.0% or above	Total consolidated shareholder return ratio of 30% or above

*The above figures are predicated on organic growth

*The shaded background figures of FY2022/03 Result and FY2023/03 Forecast which are the items of initial targets were achieved

SCREEN Group

- Strengthen innovation management
- Deepen ROIC management
- Increases efforts on ESG, climate change response, etc
- Accelerate investment and strengthen risk management for growth

SPE

- Increase market share in cleaning equipment segment
- Continue to transform toward profitability
- Strengthen after-sales services (Continue sales promotion through modification based on customer needs)
- Improve and sustain CCC by strengthening SCM (Through inventory control, shortening LT, etc.)
- Built a production structure to meet strong demand for semiconductor manufacturing equipment with the operation of new factories, S³⁻⁴ and S³⁻⁵

GA

- Expand inkjet products for the commercial printing market and the packages market
- Strengthen recurring business (Strengthen recurring business aim to stabilize earnings)

FT

- Commercialize inkjet equipment business for large-sized OLED TVs
(Align with the customer's capital investment plan and aim for increase sales in the next medium-term plan)
- Commercialize energy-related business (Early commercialization based on joint development)

PE

- Increase market share of existing equipment
- Work on new product development and aim to launch on the market

New Business

- Life sciences: Turn profitable in the final year
- New projects: Accelerate commercialization in the next medium-term management plan

SCREEN Increases Efforts to Reduce the Environmental Impact of the Semiconductor Industry - New Efforts Are Expected to Accelerate Eco-friendly Development Leading to the Realization of a Sustainable Society -

SCREEN Semiconductor Solutions Co., Ltd. increases its efforts to reduce the company's environmental overall impact. It has agreed to join the Sustainable Semiconductor Technologies and Systems (SSTS)*¹ research program led by imec*², Interuniversity Microelectronics Centre

*1 imec (Interuniversity Microelectronics Centre)

A world-leading research and innovation center in nanoelectronics, information and communication, healthcare, and energy technologies, Imec conducts joint research with companies around the world on information and communication, healthcare, and energy technologies. It is headquartered in Leuven (Belgium), and has research sites across Belgium, in the Netherlands and the USA, and offices in China, India, Taiwan and Japan. based in Leuven, Belgium

*2 SSTS

It leverages imec's expertise in the areas of infrastructure, technology, and equipment. This includes using concrete, highly reliable models plus detailed carbon footprint analyses to predict the effects of manufacturing processes on the environment. The initiative is ultimately intended to support the entire semiconductor value chain in decreasing its ecological footprint

>> Reducing the environmental load in the manufacturing processes is a common issue due to the increase in demand for semiconductor devices on a global scale

>> Reducing the environmental impact of the semiconductor manufacturing processes to achieve sustainability in social development
